

PICS-p Study *Update*

To understand the impact of critical illness on children and their families

Thank you!

Enclosed, please find a few games for you and your family to enjoy while taking part in **this very important two-year study!**

Did you Know?

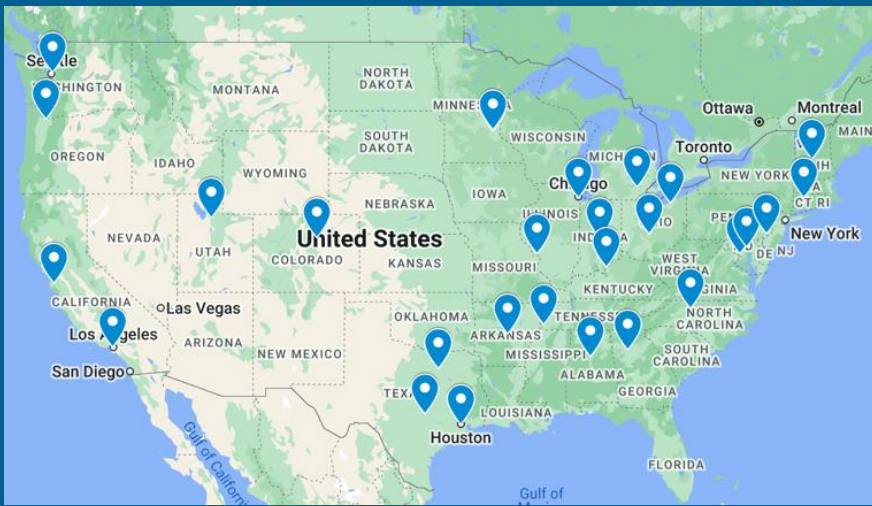

The surveys, and the time it takes to complete them, vary over time. **Please let us know if you need more time to complete yours.**

Our team is bilingual! Surveys can be completed in English or Spanish.

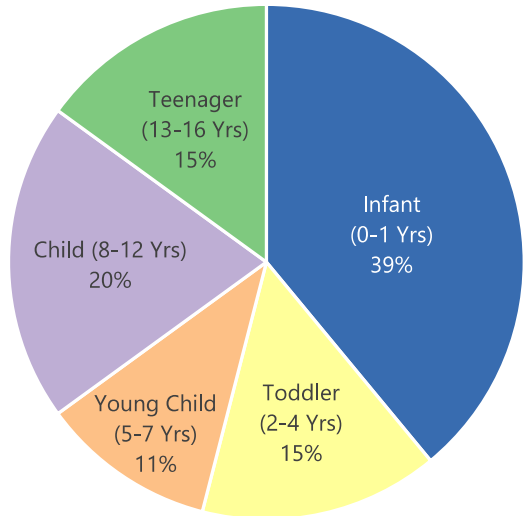

Participating Hospitals

This study started in August 2021. We recruited our final family in November 2023. We enrolled **755 families** from **30 U.S. Children's Hospitals** over the past **2.5 years**. See the map below for the locations of the hospitals taking part in this study.

Ages of Children Taking Part

Plus! **164 Siblings** of Children in the ICU

All family surveys to be completed by early 2026.

Survey Schedule After Discharge:

You will receive payment after you complete each set of surveys.

✓ All families have completed their 2 and 6 week surveys!

Contact Us

If you have any questions or concerns, contact the study team at 215-573-2504.

We want to hear from you!

We will be contacting a small number of families to talk about their experience participating in this study and recovering from a PICU stay.
