

PICS-p Study

The PICS-p study team will stay in touch with you after your child leaves the hospital. Over the next **2 years** we will remind you when it is time to answer a study survey. The survey will ask about how you and your family are doing. Sometimes your child will complete their own survey.

24-month Survey Timepoints

Each survey can be completed electronically. We will email you a link using a software called **REDCap Cloud**.

You can use a **computer, tablet, or smartphone** to complete these surveys. Or, we can help you answer the survey over the **phone**.

Thank you for being a part of our PICS-p Study!
